

FIREGARD FIRE HELMETS

Modern, high performance, reliable helmets for the professional or industrial firefighter.

EN443 STANDARD

Traditional

**Compression moulded GRP
outer shells**

**Low profile shape for balance
and comfort**

**Inner polyethylene impact
assembly for strength and
protective performance**

**“Traditional”
or
“New” styles**

New drop-sides style

Helmets include many features as standard supply including :

**4” POLYCARBONATE FACESHIELD (7” OPTIONAL)
DETACHABLE NECK PROTECTOR
MULTI-POINT HEAD CRADLE ASSEMBLY
RATCHET AUTO-ADJUST SYSTEM
FLAME RETARDANT BEADED EDGING
QUICK RELEASE CHINSTRAP AND COMFORTER**

Standard Colours : YELLOW – WHITE – RED

Due to the high quality GRP shell material, and the energy absorbing inner impact assembly, these helmets have excellent protection against penetration and impact, and provide a comfortable and secure fit for the firefighter.
